This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

The following TABLES may be ordered through—

BRYAN, CORCORAN & CO., 48 Mark Lane, London.
ROCKLIFF BROS., 44 Castle Street, Liverpool.
THOMAS MURRAY & SON, 49 Buchanan Street, Glasgow.
M'GLASHAN & GILL, 50 Upper Sackville Street, Dublin.

REDUCTION TABLES

FOR THE

FOREIGN GRAIN & FLOUR TRADE,

Price £1 1s.,

For converting the Quotations of any Grain-Exporting Country into their English Equivalents, whatever the Exchange, Money, Measure, Weight or Article may be.

COMPARATIVE TABLES

OF THE

GRAIN AND FLOUR PRICES

OF THE

UNITED STATES OF AMERICA, CANADA AND ENGLAND,

Price 5s.,

With TABLES OF EQUIVALENTS OF ENGLISH PRICES for every Weight customary in the UNITED KINGDOM, and of FREIGHT RATES.

COMPARATIVE TABLES

OF

English & American Prices,

FOR THE GENERAL TRADE,

COMPILED AND PUBLISHED

BY

CHARLES MOESCH.

ENTERED AT STATIONERS' HALL.

LIVERPOOL:
PRINTED BY ROCKLIFF BROTHERS, 44 CASTLE STREET.

1867.

232. g. 74.

INTRODUCTION.

In placing before the Commercial Public my "**Comparative Tables of English and American Prices for the General Trade,**" I may be allowed to point out the advantages the work has over other existing books of the kind.

1. The **small size,** rendering it fit for pocket use.

2. The arrangement, that to each **Rate of Exchange** an entire double page is devoted. This arrangement enables us to ascertain, on **one and the same page,** the cost of **any** article whatever.

3. **Greater correctness.** In the lb. and gallon columns the calculations are made to 1-16th of a penny, in the cwt. column to ½d.

4. **A completeness, unequalled by other systems.** It is evident, as regards the generality of articles, that the computation of American into English prices is a mere matter of reducing American currency into sterling money, at the various rates of Exchange; for most articles are sold and bought, in the two countries, by the **same Standard,** be it the lb., cwt., ton, or box, barrel, tierce, dozen, score, hundred, thousand, yard, foot, &c., &c. It wants, therefore, only one range of American prices, from the lowest possible price per lb. to the highest possible price per ton, to supply, at the various rates of Exchange, the English equivalents, and we are able to convert **any** article, sold in the two countries by the **same Standard.** This fact has been entirely overlooked so far, and therefore the incompleteness of such works.

A few articles are sold in America by the lb., that are sold in England by the cwt.; some are sold in America by the ton of 2000 lbs., that are sold in England by the ton of 2240 lbs. Liquids are sold in America by the **old Wine gallon,** in England by the **Imperial gallon,** and per **tun** of 252 gallons. **For these articles separate price columns have been established.** Spirits of Turpentine and Molasses sell in America by the **old gallon,** in England by the **cwt.** Oils—Gingelly, Lard, Cottonseed, Linseed and Rape are sold in Canada by the gallon, in England by the ton.

To render the **gallon** column available for these articles, small Comparative Tables of the respective prices are annexed, with full explanations for their use.

Finally, to render the **Same Standard** columns even available for the computation of Grain prices, a Comparative Table of English Prices, with full explanations for use, has been added.

Flour comes, of course, under the head of **Same Standard** computations, being sold in both countries by the barrel of 196 lbs.

Charges are entirely disregarded in the Tables. They will be treated separately, with full explanations how to add them.

The following few observations will suffice to explain the

USE OF THE TABLES.

Each double page, headed by the respective rate of Exchange, from 100 to 199, gives the American prices from—

1 cent. (with fractions preceding) to $1, mounting by 1 cent,
from $1 up to $100 by $1, and from
$100 „ $600 „ $100.

The column giving these prices runs through the entire double page, and is headed "**Prices in American Currency.**" Alongside this column, in all its length, runs a column of Sterling Money, headed **Same Standard.** This column gives the Equivalent of the cost of any article that is sold in the two countries by the **Same Standard**—be it the lb., cwt., ton or barrel, box, yard, dozen, etc.

Example: At the Exchange of 101 America quotes—

Cotton, 28¾ cents ℔ lb. | Indigo, $1 35c. ℔ lb. | Pig Iron, $42 ℔ ton.

We turn to the page headed 101, and find in the Same Standard columns—

28c. =1s. 3d. ¾c.= 1/16d.	$1 =4s. 5 1/16d. 35c.=1s. 6 11/16d.	$42=£9 7s. 2d. ℔ ton.
28¾c.= 1s. 3 1/16d. ℔ lb.	$1 35c.=6s. 0 1/16d. ℔ lb.	

The second column, under **Sterling Money**, gives the English price per 112 lbs., as compared with the price per lb. in American currency. Thus—

1 lb. Sugar at 9¾c., and at the Exchange of 101, is 9c. =44s. 10½d.
¾c.= 7½d.
9¾c.=45s. 6d. ℔ cwt.

Palm and Cocoa-Nut Oils are sold in America by the lb., in England by the ton. It has not been thought necessary to add a comparative Table for these two articles, as it is an easy matter to convert the cost per cwt. into that per ton.

Again, some articles are sold in America by the 100 lbs., in England by the cwt. These we convert by the **cwt.** column as compared with the lb. in American currency. Thus—

Ashes quoted $9 75c. per 100 lbs. are equal to 9¾c. ℔ lb., and at the Exchange of 101— 9c. =44s. 10½d.
¾c.= 3s. 8½d.
9¾c.=48s. 7½d. ℔ cwt.

The two last Columns, under "**Sterling Money,**" give the English prices per **Imperial gallon**, and per **tun** of 252 gallons, as compared with the price per **Old Gallon** in American currency. Thus—

At the Exchange of 101, 1 Old Gallon, quoted 24c., is equal to 1s. 3 1/16d. per Imperial Gallon, or £16 4s. per tun of 252 gallons.

The calculations are based on the proportions of

6 American Gallons = 5 Imperial Gallons.
303 „ „ = 252 „ „

On the second page, we find under **American Currency** a column for the ton of 2000 lbs., as compared with the ton of 2240 lbs. English Money under **Same Standard** column.

It gives the prices from $5 36c. to $535 71c., preceded by the fractions of the Dollar, mounting by 10 cents. Thus, at the Exchange of 101, one ton of 2000 lbs., quoted $25, is equal to £6 4s. 9d. per ton of 2240 lbs.

The cost of any article whatsoever can therefore be ascertained on the same page, so soon as we know how the respective article is sold in the United States or Canada, and in England.

CHARLES MOESCH.

NOTICE.

Several reasons have induced me to abandon my first idea of bringing the full range of Exchange from 100 to 200 into One Volume.

The Book being intended for pocket use, the additional Tables from 169 to 200 would have made it too bulky, and the chance is that the Exchange will perhaps never overstep the rate of 168. Besides, the publication would have been considerably delayed.

The work will appear, therefore, in Two Volumes; the first giving the Tables from Exchange 100 to 168, the second from 169 to 200, accompanied by some hints about charges, and a list of ready-made charges for the principal articles.

CHARLES MOESCH.

LIVERPOOL, *November*, 1867.
